

Autotron 120

Automated Clinical Chemistry Analyser

Innovative Life Solutions from AMS UK Limited

Throughput per hour: 100 T/hr

Methods: End Point, Two Point, Kinetic

Totally open system

Sample Volume: 3-45 ul

Reagent Volume: R1: 180—450ul, R2: 30-250ul

90 cuvettes

Wavelengths: 340—700nm

Tailor made reagents from AMS

Who are AMS UK?... Established in 2005 AMS is a rapidly expanding, innovative primary diagnostics manufacturer based in the United Kingdom specialising in the manufacture, development and sales of a large range of clinical diagnostics and point of care products for a global market. Our product range is exported and marketed through an expanding network of distributors in 60 countries and growing. In countries where AMS is not as yet represented, deliveries are made directly from the company's UK headquarters. We are committed to supplying quality products to international standards.

If you are interested in supply and distribution opportunities for AMS Phototron 120 Analyser or any other of our specialised diagnostic products, please don't hesitate to contact us.
